

# GROSS RESERVOIR EXPANSION PROJECT

## Responding to Community Concerns / Permitting Process Timeline

### Transportation

- New plans for a safer intersection at Highway 72 and Gross Dam Road
  - Increased visibility for all vehicles entering and exiting Gross Dam Road (during and after construction)
  - Permanent improvements remain long after construction is complete
- On-site quarry for 1.5 million tons of sand and gravel will reduce trucks trips by 75 percent each construction day

### Recreation

- Recreation maintained along the North Shore throughout construction
- Recreation restored in other areas upon completion of project

### Construction

- During design, Denver Water will evaluate ways to minimize the effects of noise and light pollution on the residents in and around Coal Creek Canyon
