**2009**

**COIN-OPERATED  
LAUNDRY EQUIPMENT  
REBATE APPLICATION**

Denver Water will pay our business and institutional customers to purchase or lease high-efficiency coin-operated laundry equipment.

The Coin-Operated Laundry Equipment Rebate program offers \$150 per machine purchased or leased and installed. To receive a rebate, washers must meet Consortium for Energy Efficiency (CEE) standards for energy and water efficiency. For a complete list of approved washers, go to <http://www.cee1.org/com/cwsh/archive/cwsh-prod-arch.php3>.

**Qualifications:**

- Customer must receive treated water from Denver Water or a Denver Water provider. (See accompanying list to see if your provider qualifies).
- A receipt for the new laundry equipment, dated between January 1 – December 31, 2009 must be provided with your application.
- SUBMIT YOUR APPLICATION WITHIN 90 DAYS OF PURCHASE.** Installation and inspection must be completed within 12 months.
- The water savings from the new equipment must last at least 7 years, including leased equipment.
- Mail completed application form to Denver Water, MC 330, 1600 W. 12th Ave, Denver CO 80204.
- Please allow 8-12 weeks for your completed application to be processed.
- If you have questions, please call 303-628-6343.

*\* Failure to cash a rebate check within 90 days of issuance shall void the rebate and shall relieve Denver Water of any obligation or liability to pay the rebate. Rebate checks cannot be reissued.*

**Applicant Section:** Please return this completed form with your original sales receipt to Denver Water to qualify for the rebate.

**Enter the name and address of the person/company receiving the rebate:**

Name		Daytime Phone No.
Company		Federal Tax ID No.
Address	City	Zip code

**Enter the contact name and address where the item(s) are installed (if different from above)**

Name		Daytime Phone No.
Company		
Address	City	Zip code
Denver Water or Water Provider Account No.	Water Provider	

I certify that the coin-operated laundry equipment was purchased new in 2009 and installed at the address indicated. I have stapled the original sales receipt to the application. I certify that the old coin-operated laundry equipment has been rendered inoperable and have not been sold or donated for resale. I understand that the installation of coin-operated laundry equipment may not result in a decrease in my water bill, and that Denver Water will inspect my premises prior to issuing my rebate.

# CEE Commercial, Family-Sized Washer Initiative Qualifying Product List

November 17, 2009

The list is updated monthly. See the CEE website ([www.cee1.org](http://www.cee1.org)) for the most recent list.  
This list based on 2007 CEE Commercial, Family-Sized Clothes Washer Specification.

## Key

- *Red italics* indicate that a product is discontinued. Discontinued models are no longer manufactured, but may still be available in the marketplace.
- *Blue italics* indicate a U.S.-only model.
- *Green italics* indicate a Canada-only model.
- Models shaded in GREY use Silver Ion
- Symbols: An asterisk (\*), plus sign (+), or pound sign (#) indicate that one or more coding variables may be used in place of the asterisks to indicate a color or feature that does not affect washer efficiency
- Models labeled "(SG)" (stacked-gas) or "(SE)" (stacked-electric) have a washer and dryer combined into one unit. CEE only requires test data for the washer and doesn't certify the efficiency of the dryer component.
- MEF=Modified Energy Factor, a combination of Energy Factor and Remaining Moisture Content. MEF measures energy consumption of the total laundry cycle (washing and drying). It indicates how many cubic feet of laundry can be washed and dried with one kWh of electricity; the higher the number, the greater the efficiency.
- WF=Water Factor (number of gallons needed for each cubic foot of laundry). A lower number indicates lower consumption and more efficient use of water.
- Although all models on the CEE list are very efficient, the tiers are structured so the most efficient products are listed in the higher tiers. For example, Tier 3 would contain the most efficient models.

## How this list is generated

Manufacturers submit energy and water use data to CEE for each model as determined by test procedures set by the U.S. Department of Energy. Models are placed in the tier appropriate to their energy and water use. CEE asks manufacturers to calculate MEF to 2 decimal places and WF to 1 decimal place, and tier eligibility is evaluated at that level of precision. CEE does not round, except when a manufacturer has submitted the data with more than 2 decimal places in the case of MEF or more than 1 decimal place in the case of WF, in which case the data is rounded to the nearest hundredth or tenth, respectively.

**CEE does not administer rebate programs. Consumers who have questions about filling out rebate forms should contact their program administrator (often the local utility). Please do not call CEE.**

## Terms of Usage

This list may not be reproduced, disseminated, published or transferred in any form or by any means, except with the prior written permission of CEE or as specifically provided below.

CEE grants its Members and Participants permission to use the material for their own use in implementing or administering the specific CEE Initiative to which the material relates on the understanding that: (a) CEE's copyright notice will appear on all copies; (b) no modifications to the material will be made; (c) you will not claim ownership or rights in the material; (d) the material will not be published, reproduced, transmitted, stored, sold, or distributed for profit, including in any advertisement or commercial publication; (e) the materials will not be copied or posted on any Internet site, server or computer network without CEE's express consent; and (f) the foregoing limitations have been communicated to all persons who obtain access to or use of the materials as the result of your access and use thereof.

CEE does not make, sell or distribute any products or services, other than CEE membership services, and CEE does not play any implementation role in the programs offered and operated by or on behalf of its members. The accuracy of member program information and of manufacturer product information discussed or compiled in this site is the sole responsibility of the organization furnishing such information to CEE, and CEE is not responsible for any inaccuracies or misrepresentations which may appear therein.

CEE does not itself test or cause to be tested any equipment or technology for merchantability, fitness for purpose, product safety, or energy efficiency and makes no claim with respect thereto.
